**New kids on the web production block help promote responsible travel as
miggle.co.uk relaunch the cosmofil.com website**

[Web producers miggle.co.uk](http://www.miggle.co.uk) announce the relaunch of the [cosmofil.com](http://www.cosmofil.com) website - a small Sussex business promoting responsible travel through cultural exchange. An initial miggle consultancy lead to an extensive redesign of their existing website, with the aim of dramatically increasing the number of host families and bookings.

Babette Kundrat, cosmofil founder, says, "Quite simply, I was thinking of giving up my project until I met Alick. Thanks to his team, I now have a stunning, functional web site I am proud of. Right from the start, miggle.co.uk showed enthusiasm and dedication. They don't confuse me with jargon and cosmofil is benefiting hugely from their experience and expertise. I look forward to a long and successful collaboration with miggle.co.uk"

Founding Director of miggle.co.uk, Alick Mighall says, "As well as rethinking the design and navigation of the site, we created a simple content management system from scratch so Babette can easily manage updates as their directory of cultural hosts expands. We're looking forward to watching cosmofil grow, as the redesign is just the first step in miggle.co.uk helping cosmofil carve a niche in the travel market."

Based in Brighton and Hove, miggle.co.uk is a newly established web agency providing web production, consultancy and management services. Clients include AOL (UK) Ltd, Yahoo! Europe and businesses of all sizes across Sussex.
