The miggle team is pleased to announce the relaunch of the miggle.co.uk website, coinciding with the 2nd birthday of this successful web design and development, content management and online media services business.

Managing Director of miggle.co.uk, Alick Mighall, writes in our online blog,

“What we’ve built at miggle is a real solid understanding of web audiences. You’ll get the benefit of that if you ask us to [rebuild your website](#), take care of [managing content](#) on your existing page or [drive more usage](#) to your website - all to time and budget with no hidden costs.

“Our relaunch comes at a time of great economic uncertainty. We can save on your in-house costs and make your online properties work harder for your business. And we’re a company which continues to be built on solid fundamentals - achieving growth, while remaining profitable, as we have been since day one.”
